Narcotics Projects and Activities: [REDACTED]

- o [REDACTED] completed coordination on the narcotics collection guidance for the DAOs and you have signed the letter to LTG Williams. Subsequently, however, we learned that DIA wanted to incorporate into the letter to LTG Williams what they would/would not do. [REDACTED] met yesterday with [REDACTED] John Hughes' deputy, and has identified DIA's concerns. In essence they feel some of the topics are non-military related and are not within their purview -- they want these items deleted from the letter. We will continue to work to resolve this matter.

Strategic Cruise Missile Study: [REDACTED]

- o We are in the final stages of editing the Cruise Missile draft report and the Executive Summary has been reviewed thoroughly. The report will be forwarded to you and the members within the next day or so.
- o On Thursday, 11 August, [REDACTED] introduced Col. Robert Brown, US Army (new Deputy Director, Missile Intelligence Agency), to the IC Staff during a series of briefings with committee chairmen/office directors. [REDACTED] who understands basic Staff functions, thought the briefings would provide Colonel Brown with an overview of the Community since he has not served in any intelligence-related billets previously.
